

# Hermann Regional Economic Development, Corp.

150 Market Street

Hermann, MO 65041

November 10, 2018

Dear HRED Supporter;

Hermann Regional Economic Development Corporation is made up of local residents who assist in improving the economic condition for the Hermann area. It is that time when we are asking you for donations to keep the work going.

In the past, HRED held Banquets/Auctions. We know your time is important so this year we are attempting to do a fundraiser that will allow you to donate without having to attend a banquet or participate in a raffle.

HRED appreciates your past contributions and hope we can count on you for another donation in 2018. HRED was started when local citizens identified a problem that impacts Gasconade County RI School District, St. George School, the Hermann Area District Hospital and the community's long-term quality of life.

In the past HRED drastically reduced the expenditures by discontinuing our use of a consulting firm. The HRED Board continues to work with the Missouri Department of Economic Development and Missouri Partnership.

HRED has utilized the University of Missouri Extension Service to guide HRED to understand and define the present and future needs of the community. They have provided key statistics regarding our community, and assist in directing the HRED Board for the success we are striving for.

HRED works with the Community Foundation of Hermann in order to assure any contributions can be tax deductible.

The HRED Board understands that **"Doing Nothing is Not an Option"**. We have to keep working for our community.

Thank you for the continuing support of this important effort to maintain community and quality of life.
